Goals

Discussion items

Time	Item	Who	Notes
	Development environment	All	- Setup the development environment - Use IntelliJ IDEA Ultimate instead of eclipse - Apache Tomcat version 9.0.37 - PostgreSQL Database version 10.14
	Draft out workflow	All	Discuss about the naming rules
	Design the database	All	As a lesson learned from deliverable 1 (use case diagram), we realized that working together without thinking independently would cause some blackspots. So this time we decided to meet up with everyone brings a database design and then collaborate.
